PRIS: Positive Response Information System

View Ticket Responses Before Excavating!

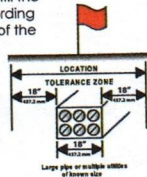

1. Go to MyGeorgia811.com
2. Select View Ticket Responses (PRIS)

Or sign in to the Georgia 811 app and select **VIEW TICKET RESPONSES.**

TOLERANCE ZONE

Any excavation within the tolerance zone should be performed with hand tools until the marked facility is exposed. According to Georgia State Law the width of the tolerance zone is 18" (457.2mm) from the **outside edge of the facility**. It is not measured from the locate marks. The Tolerance Zone includes the width of the facility plus 18" (457.2mm) measured from the outer edge of each side of the facility.
